

Vassil Ivanov

Managing Director

MA Pack Ltd.

01 June 2015

We have two daughters in Evrostar International School who were taught by Ms. Eva J. Pillossof. We are very pleased to prepare this reference letter as recommendation for Ms. Pillossof's credibility as one of the greatest teachers that we have ever had for our children. During her dedication for classes of our children, Ms. Pillossof has always been supportive and thoughtful of the students' needs. We heard so many good things about her and many students adore her so much.

The way that Ms. Pillossof teaches the students is very effective and methodological. She uses technology in delivering the knowledge of using the internet for students, helping students to become proficient in independently using Microsoft Word to edit and publish their writing, as well as helping students to become proficient in organizing data files, electronically submitting assignments and responsibly taking care of their data and USB's.

Along the way, Ms. Pillossof also helps students to improve their problem solving skills, understanding math as a language, and process, becoming independent and confident learners, becoming caring leaders and positive team players, introducing the importance of family and the job of students to be a good son or daughter, and last but not least, creating a joyful environment in the class during their school days. We have never received any complaint regarding Ms. Pillossof from our daughters.

We believe that Ms. Pillossof has become a value added for EIS with her presence and we are very grateful that our children had the opportunity to be taught by such a great teacher. Her way of teaching and the values that were given by her to the mind of our children will surely be remembered for long.

We would like to express our sincere thanks and appreciation for Ms. Pillossof and hopefully this recommendation letter will be useful for her future career. We would strongly recommend her for her future endeavor wherever she will be.
