QUIZ N^o17: CHAIN RULE

Imagine I am a classmate of yours who does not understand the chain rule. I am stuck at home with no phone or microphone so you can only type to me. I am also under quarantine so you cannot visit me either. Our test is tomorrow and I have to do well. Please explain the chain rule to me as best as you can. Each explained detail will bring you 2 points. Each example to that detail will bring you an additional 1 point.

HELP ME!!!
